

**Supplemental Table 1.** Distribution of study participants (n=280) across the 10 selected villages according to the PPS sampling method.

Study sites	Participants <sup>a</sup> (n=280)	
	n	%
<b>Village</b>		
Village A	4	1.4
Village B	9	3.2
Village C	14	5.0
Village D	20	7.1
Village E	25	8.9
Village F	31	11.1
Village G	36	12.9
Village H	42	15.0
Village I	47	16.8
Village J	52	18.6

<sup>a</sup> the number of participants imply the same number of households (only one eligible participant per household will be selected).

**Note:** the actual names of the villages had been removed for privacy reasons, denotation of village A to J had been used instead
