

| | PICO Question |
|---|--|
| 1 | Is there significant difference in SCP VD measured by OCTA between healthy pregnant women and non-pregnant controls? |
| 2 | Is there significant difference in DCP VD measured by OCTA between healthy pregnant women and non-pregnant controls? |
| 3 | Is there significant difference in FAZ measured by OCTA between healthy pregnant women and non-pregnant controls? |
| 4 | Is there significant difference in CC VD measured by OCTA between healthy pregnant women and non-pregnant controls? |

Table2 PICO Questions PICO, Population, Intervention, Comparator, Outcome; OCTA, optical coherence tomography angiography; SCP VD, superficial capillary plexus vascular density; DCP VD, deep capillary plexus vascular density; FAZ, the foveal avascular zone; CC VD, choriocapillaris vascular density.
