

**Supplementary table 6.** Risk of MACE among different follow-up period in N1 matched population.

	HZ vaccine		No HZ vaccine		HR (95% C.I.)
	N	No. of event	N	No. of event	
Follow-up period					
≤5 years	45,958	2,513	45,958	3,051	0.70 (0.66–0.74)
5-10 years	43,445	812	42,798	799	0.93 (0.84–1.02)
>10 years	42,633	149	41,999	238	1.13 (0.92–1.39)

MACE: major adverse cardiovascular events; HZ: herpes zoster  
N1 indicate any herpes zoster vaccination versus no herpes zoster vaccination population
