

Appendix A

Active Monitoring: a survey of the experiences of nurse-led follow up within the context of the ProtecT study:

Urologist views and comments:

1. How many years have you been involved in the ProtecT Study?

2. In your centre, do you have nurse-led follow up for participants on Active Monitoring?

Yes ☐ No ☐

3. Are you involved in the Active Monitoring follow-up of participants in the ProtecT Study?

Yes ☐ No ☐

3a. If “yes” please indicate which ‘type’ of appointments you see the participants at

Clinical follow up Annual review Cancer review

4. Nurse-led clinical follow up – benefits to the study participants?

Do you think the Active Monitoring appointments provide?

4a Psychological support

Strongly agree ☐ Agree ☐ Neutral ☐ Disagree ☐ Strongly disagree ☐

4b. Continuity of care

Strongly agree	Agree	Neutral		Disagree	Strongly disagree
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	

4c. Flexibility of appointments e.g. Telephone and /or outreach. NB: “outreach” – some centres run clinics away from the main hospital or within primary care in order to maximise attendance rates.

Strongly agree	Agree	Neutral		Disagree	Strongly disagree
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	

5. Nurse led clinical follow up – benefits to the Urologists?

5a. Reduced burden of appointments in standard NHS clinics

Strongly agree	Agree	Neutral		Disagree	Strongly disagree
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	

5b. The clinics are cost effective?

Strongly agree	Agree	Neutral		Disagree	Strongly disagree
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	

5c. Provide reliable and timely appointments for the men

Strongly agree	Agree	Neutral		Disagree	Strongly disagree
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	

5d. Provide freedom for nurses to initiate diagnostic tests

Strongly agree	Agree	Neutral		Disagree	Strongly disagree
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	

5e. Allow nurses to initiate direct referrals e.g Andrology

Strongly agree	Agree	Neutral		Disagree	Strongly disagree
----------------	-------	---------	--	----------	-------------------

☐ ☐ ☐ ☐ ☐

5f. Do you feel your ProtecT nurses have sufficient specialist skills?

Strongly agree Agree Neutral Disagree Strongly disagree

☐ ☐ ☐ ☐ ☐

5g. Are there any other skills/tasks you would encourage the nurses in your centre to take on?

6a. Do you carry out or arrange any of these tests or examinations routinely rather than having nurses initiate them? i.e. tests/examinations that are not part of a 'cancer review'.

Yes ☐ No ☐

6b. If "yes" please indicate which tests

DRE's ☐ Biopsy ☐ TRUS ☐ ☐ ☐

7. Are there any other tests or examinations you feel should be done routinely?

If 'yes' what are the barriers that stop you from allowing the nurses to carry out these tasks?

8. Do you feel the men are receiving a good quality of care from the nurses?

Strongly agree	Agree	Neutral		Disagree	Strongly disagree
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

9. What do you feel are the disadvantages of nurse-led follow up?

10. Optional: Please use the space below for any further comments about nurse-led follow up.

Thank you for taking the time to complete this survey
